Our primary brand colors are Onyx, Auburn, and White. These reflect our bold, professional identity and should be used consistently across all materials to maintain visual cohesion. Cadet Gray and Light Green are accent colors and should be used sparingly—ideal for small details like icons, highlights, or callouts. You may use red gradients into black or white to add depth and dimension, but avoid using gradients with other colors or outside the approved palette.

Don’t

- Use generic, overly staged stock photos
- Stretch, skew, or crop the logo or photo
